I. Introduction

This document outlines the classification codes used in:

- Version 2.3 onwards of the AddressBase Technical Specification
- Version 2.5 onwards of the AddressBase Plus Technical Specification
- Version 2.7 onwards of the AddressBase Premium Technical Specification

Classifications are sourced from the Local Land and Property Gazetteers and from Ordnance Survey large-scale data.

The following sections show the classification of address objects that are in the AddressBase products identifying the highest level for AddressBase – residential and commercial – and four levels in the AddressBase Plus and AddressBase Premium products. These can be as high-level as commercial property or as detailed as a youth hostel.

1.1 Example of a detailed classification

Table 1 contains an example of how a classification can be structured in AddressBase Plus and AddressBase Premium:
