

Mapping for Emergencies

If geographic information is required to support your response to a major or civil emergency, your requirements can be met with our 24 hour service.

We can provide data, paper mapping or geographic information advice.

In an emergency phone 08456 05 05 05

Here are some examples of the types of incidents we have supported in the past:

- Major fire, flood or explosion
- Terrorist activity
- Major road/rail/air accidents
- Outbreaks of animal diseases, such as foot and mouth, swine fever and bird flu
- Outbreaks of human diseases
- Police coordinated searches for missing people

Our Incident Managers will also consider any other situations of national interest which may warrant implementations of the procedures.
