The listing has been produced by Ordnance Survey as an aid to our customers and prospective user of digital mapping. It has been produced from information provided by individual system suppliers and the accuracy of the information has not been verified. No liability whatever will be accepted by Ordnance Survey arising from the use of any of the products provided by the companies listed above. It is the responsibility of Licensed Partners to inform Ordnance Survey of any changes in their data import capabilities.

Come and see the Education team at BETT and the GA Conference in 2007

Following successful shows in 2006, the Ordnance Survey Education team will again be exhibiting at the BETT Show and the Geographical Association (GA) Annual Conference and exhibition in 2007.

We welcome you to join us on stand where we can demonstrate our award winning GIS Zone, part of the free, non-registration MapZone® website, which was specially designed for students. We can also show you how you can get Ordnance Survey digital map data for you school and demonstrate how the map data can be used in a variety of schools' GIS software.

BETT Show 2007
Geographical Association (GA) Conference and Exhibition 2007

Stand E56, Olympia, 10–13 January 2007.
University of Derby, 13–14 April 2007.
