

AddressBase Core Release 18/10/2021

Release Note version 1.0

GB coverage

Version	Change
1.0	Initial publication of this release note.

Introduction

This release note provides information about the release of AddressBase Core on **18 October 2021**.

Record counts

Product	Full Supply record count ¹	Change-Only Update record count
AddressBase Core	33 633 229	54 074

Product supply comparison

There is a difference in record counts between taking a national Managed Great Britain Set (MGBS) and the national 5km tile supply. This is because the two supplies use different selection criteria. The difference in record counts is shown in the following table, allowing for you to validate your data holdings once you have loaded the latest release of AddressBase Core.

Product	MGBS Full Count	National 5km tiled supply	Difference
AddressBase Core	33 633 229	33 633 223	6

A small difference in record counts is expected due to there being several features supplied in the MGBS which fall outside of the tiled area.

¹ These counts are based on a Managed Great Britain Set (MGBS). If you have ordered your national coverage via the online ordering system using a polygon outline, then your counts may differ.

Changed records

If you receive a Change-Only Update (COU) supply for your AddressBase Core product, you will receive Inserts, Updates and Deletes records within the supplied file. The following table details the numbers of these records which can be expected in the COU supply of the product:

Change type	Count
Inserts	10 281
Updates	39 196
Deletes	4,597
COU populated 5km tile count	3,696

It is important that COUs are processed with Deletes first, then Inserts and Updates. This is to ensure that updates are applied in the correct order. Guidance on this can be found in Section 5 of the [AddressBase Core – Getting Started Guide](#) on the AddressBase Core product support webpage.

Source data currency

The following information relates to the currency of the source data used in the creation of this release of AddressBase Core:

Data source	Date
Royal Mail PAF	14 October 2021
National Land and Property Gazetteer	14 October 2021
One Scotland Gazetteer	05 October 2021
OS MasterMap Topography Layer	13 September 2021

Data issues and updates

There are no data issues or updates to report for this week's release of AddressBase Core.
