

How do I create polygons?

Step 1

From the 'Drawing tools' menu select 'Shape' and then 'Polygon'

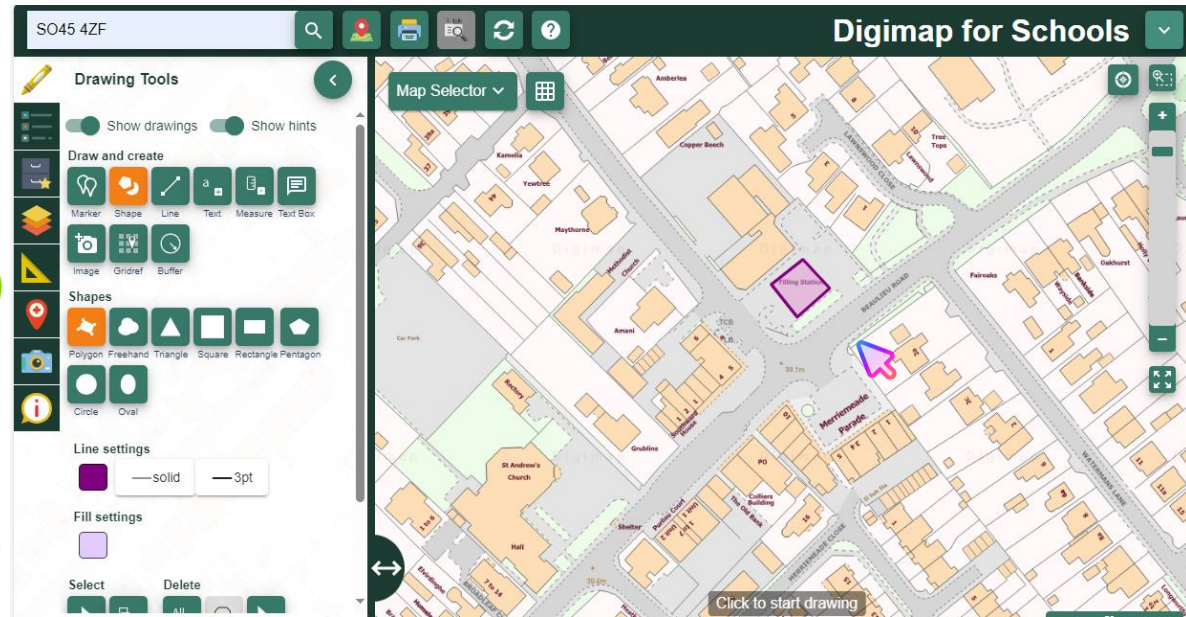

Step 2

Click on each of the corners of your building until your polygon is filled.

Step 3

Double click to finish your drawing.

Hot Tip

- Want to impress your teacher? Try editing your polygon using the line and fill settings.
1. Fill settings will allow you to change the colour of your polygon to match your key
 2. Line settings will allow you to change the thickness and style of your line
